(54) Title: MAGNETICALLY TARGETABLE MITOMYCIN C COMPOSITIONS AND METHODS OF THEIR USE

(57) Abstract: The present embodiments are directed to compositions and methods of delivering the compositions that comprise mitomycin C and superior magnetically targetable carrier particles. As the compositions are magnetically targetable, their use allows the localization of mitomycin C to particular locations within a patient. This allows for an increase in the effective concentration or a decrease in systemic exposure of mitomycin C in a patient.
